

CALL FOR A PhD SCHOLARSHIP

We are looking for candidates to develop a PhD in the Cell Biology, Physiology, and Immunology department of the University of Barcelona.

There is call for a FPI scholarship associated to the national Grant PID2020-116172RB-100 named:

Control of adiposity and the endocrine role of bone in rainbow trout and gilthead sea bream: *in vitro* and *in vivo* approaches.

The PhD will focus on the characterization of the gilthead sea bream bone derived cells secretome to identify and study the role of osteokines in muscle and adipose development using both *in vivo* and *in vitro* approaches.

The information related to the specific call can be found in the following link:
